

Araña is a project born from the collaboration between Jean Nouvel and Troll. Araña gives total freedom for each client to become the creator of his or her own style.

The idea is to be able to place the lighting system wherever desired, with the final design depending on the creativity of each person.

Araña is an adventurous lighting solution, which challenges the individual's creativity and imagination to create their own style with total freedom... a style of lighting with total freedom.

Atelier Jean Nouvel, France

Power

E27 max.70W - incandescent or LED

Control gear

Electronic (EL)

IP

IP20

Finishes

White (33)

Black (04)

Supply voltage

220... 230V, 50/60Hz

Installation

Ceiling

Accessories

Fixing

Box

Connection element, easily-installed on the ceiling and allowing up to 10 luminaires to be simultaneously connected depending on lighting and aesthetic requirements.

Elements of box connection

The necessary connection elements are not supplied with the connection box, as these will depend on the number of luminaires to be used. Therefore, the box should be prepared prior to installation with the necessary connection elements [reference 23/5200].

- Once the box is prepared, it is mounted on the ceiling by means of fixing points.

Luminaires

Suspended luminaires by cables joined to the connection box which allow the point of light to be placed at the desired position, height and intensity.

- The system has several types of luminaires: simple; with dimmer feature; with height regulator. Also available are fixing elements and expandable which make the system more flexible.

E27 LED lamps with different shapes.

Accessories

Fixing points to suspend and place the luminaire where desired.

- Elements which allow for luminaire to be extended to area to be lit. Cable length 1.5 metres.
- Finish: White, Black
